

JOSHUA CORDIAL

SOFTWARE DEVELOPER | FULL-STACK APPLICATIONS | CAD & 3D PRINTING

joshcord99@gmail.com / github.com/joshcord99 / linkedin.com/in/joshua-cordial-0aa18a3a0

PROFESSIONAL SUMMARY

California-based software developer focused on building practical software tools that solve real problems, create value for people, and contribute to a better future. Background includes software applications, web platforms, data-driven workflows, operations systems, CAD modeling, and 3D printing. Comfortable combining technical troubleshooting, programming, and hands-on design to support teams and deliver useful solutions.

CORE COMPETENCIES

Software Development Application Development Automation React TypeScript JavaScript Node.js Express.js Python C C++
REST APIs API Integration MongoDB MySQL PostgreSQL GitHub AI-Assisted Development Debugging Technical Troubleshooting
Data Accuracy Operations Systems CAD Modeling 3D Printing

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, Python, C, C++, PHP
Frameworks/Libraries: Node.js, Express.js, React, Tailwind CSS
Backend: MongoDB, MySQL, Firebase, PostgreSQL
AI Programming: AI-assisted programming, debugging support, prompt writing, token-aware workflow planning
Tools/Platforms: GitHub, VS Code, Postman, Microsoft Office Suite, Vertex AI, Cursor, ChatGPT, Claude, Codex, Gemini, GitHub Copilot, Hugging Face, Bambu Slicer, 3D printing, CAD modeling

EXPERIENCE

In-Gate Clerk Aug 2025 – Feb 2026
Maersk / South Gate, CA

- Entered, reviewed, and managed container and shipment records in terminal operating systems with a focus on accuracy, compliance, and real-time tracking.
 - Coordinated with internal departments to resolve operational discrepancies and keep gate workflows moving efficiently.
 - Analyzed shipping documents against port regulations, assignment rules, and system protocols before approving driver entry.
 - Provided front-line support to drivers by translating procedures and system requirements into clear instructions.
 - Identified and rejected containers not assigned to the facility, reducing workflow errors and compliance risk.
 - Maintained organized digital and physical records for auditing, follow-up, and operational visibility.
- Skills:** Terminal operating systems, Data accuracy, Compliance review, Operations coordination, Digital records, Customer support

Software Developer Dec 2024 – Jan 2025
Reality AI / New York City, NY

- Researched unfamiliar codebases, documented workflow findings, and helped team members understand implementation tasks.
 - Supported remote collaboration through Zoom and Google Meet sessions, task updates, and team communication.
 - Used AI-assisted programming tools, including Vertex AI concepts, to support research, debugging, and development planning.
 - Reviewed deliverables against required competence criteria before submission.
 - Contributed to open-source project work while gaining experience with real-world development practices.
- Skills:** Vertex AI, AI-assisted programming, Prompt writing, Token-aware planning, Codebase research, Open-source collaboration, Remote teamwork

Diesel Technician May 2023 - Aug 2024
FedEx Freight / Gardena, CA

- Inspected, diagnosed, maintained, and repaired diesel trucks and trailers in a high-accountability freight environment.
 - Used diagnostic tools and structured troubleshooting to identify mechanical and electrical issues.
 - Performed preventive maintenance including oil changes, brake service, tire inspections, and safety checks.
 - Repaired engine, transmission, suspension, steering, and related vehicle systems.
 - Conducted DOT safety inspections to support federal compliance and operational safety.
 - Maintained accurate service and repair records for traceability and follow-up work.
- Skills:** Diesel engines, Automotive repair, Diagnostics, DOT inspections, Preventive maintenance, Service records

PROJECTS

TomoPudgy

Back-End Developer / TypeScript, Node.js, Express.js, MongoDB, API, Apollo Server

Built a calorie-tracking application that helps users log daily meals and monitor intake using a MERN stack, GraphQL/Apollo, MongoDB, and third-party API integrations.

Find-A-Programmer

Developer / TypeScript, React, HTML, CSS

Developed a candidate-search tool for employers to search, view, and save GitHub developer profiles using React, TypeScript, and GitHub's public API.

EDUCATION

- **Bachelor's Degree in Computer Science** - California State University, Long Beach
- **Full-Stack Web Development Boot Camp Certificate** - University of California, Irvine
- **Associate Degree in Computer Science** - Long Beach City College
- **High School Diploma** - Tustin High School

CREDENTIALS

Automotive & Diesel Training

2021 - July 2023

Universal Technical Institute / California

- UTI Diploma
- Student of the Course Certificate
- Earned an Associate of Occupational Studies Degree in Automotive & Diesel Technology II.
- Recognized as Student of the Course in 1 course.

Full-Stack Certificate

2024 - 2024

University of California, Irvine / Irvine, CA

- Certificate of Completion
- Boot Camp Graduation

CAD Fundamentals Certificate

Jan 20, 2026 - Jan 22, 2026

Autodesk Authorized Training Center /
Pasadena, CA

- CAD Fundamentals Certificate
- Earned an Autodesk Certificate of Completion for CAD Fundamentals for Students.
